

TL218B

Dual 18" Subwoofer

DESCRIPTION

TL218B is a compact subwoofer specially designed for touring applications that require powerful bass and extended low frequency response. It comes with 2 x 18" high-efficiency drivers and delivers up to 4000W peak power output. When arrayed with full-frequency line array speakers, It is perfectly suited for applications such as concert halls, Houses of Worships, stadiums, auditoriums, and other applications requiring superior sound and speech intelligibility.

FEATURES

- 2 x 18" high power woofers
- High quality birch plywood
- High SPL output and sensitivity
- 4000W peak power output
- Perfect line array solution arrayed with full-frequency speakers
- Multiple installations ranging from ground-stacked, suspended, or mounted
