

VX15a

15" Two-Way Full-Range Active Speaker

DESCRIPTION

The VX series of multifunctional speaker system is designed for various applications requiring sound solutions of high durability and portability. The cabinet is made of Polypropylene material, with a special medium that is specially added to improve sound quality. Equipped with excellent wear-resistance, along with outstanding sound quality performance. VX15a is a two-way full-range active speaker composed of a 15" LF woofer and a 1" HF compression driver with Titanium diaphragm. Its characteristics include big dynamic, high sensitivity, clear MF and HF with powerful LF. VX15a adopts the integrative design of the horn and cabinet, with two rigging points at the top, one at the back, and there is mounting hole at the bottom of the cabinet. Each Handle at back of upper and sides of cabinet. Standard rigging design ensures installation and outdoor portability.
